Health Ranger Show #75: Interview with Dr. Sherri Tenpenny on the Dangers of Vaccines

Dr. Sherri Tenpenny, author of "Saying No to Vaccines" shares revolting details of what vaccines are made of, how they harm human health and why Big Pharma keeps pushing them on everybody.

"This report is an absolute must-read for parents everywhere. It contains the facts about vaccines, children and immune health that the vaccine manufacturers and government health authorities don't want circulated. Whether or not you choose to vaccinate yourself or your children, you owe it to yourself to hear both side of the story before making a decision, and this report tells you the side of the story your doctor was never taught in medical school."

-Mike Adams, the Health Ranger, editor of NaturalNews.com
